

Eduroam Android Operating System Settings

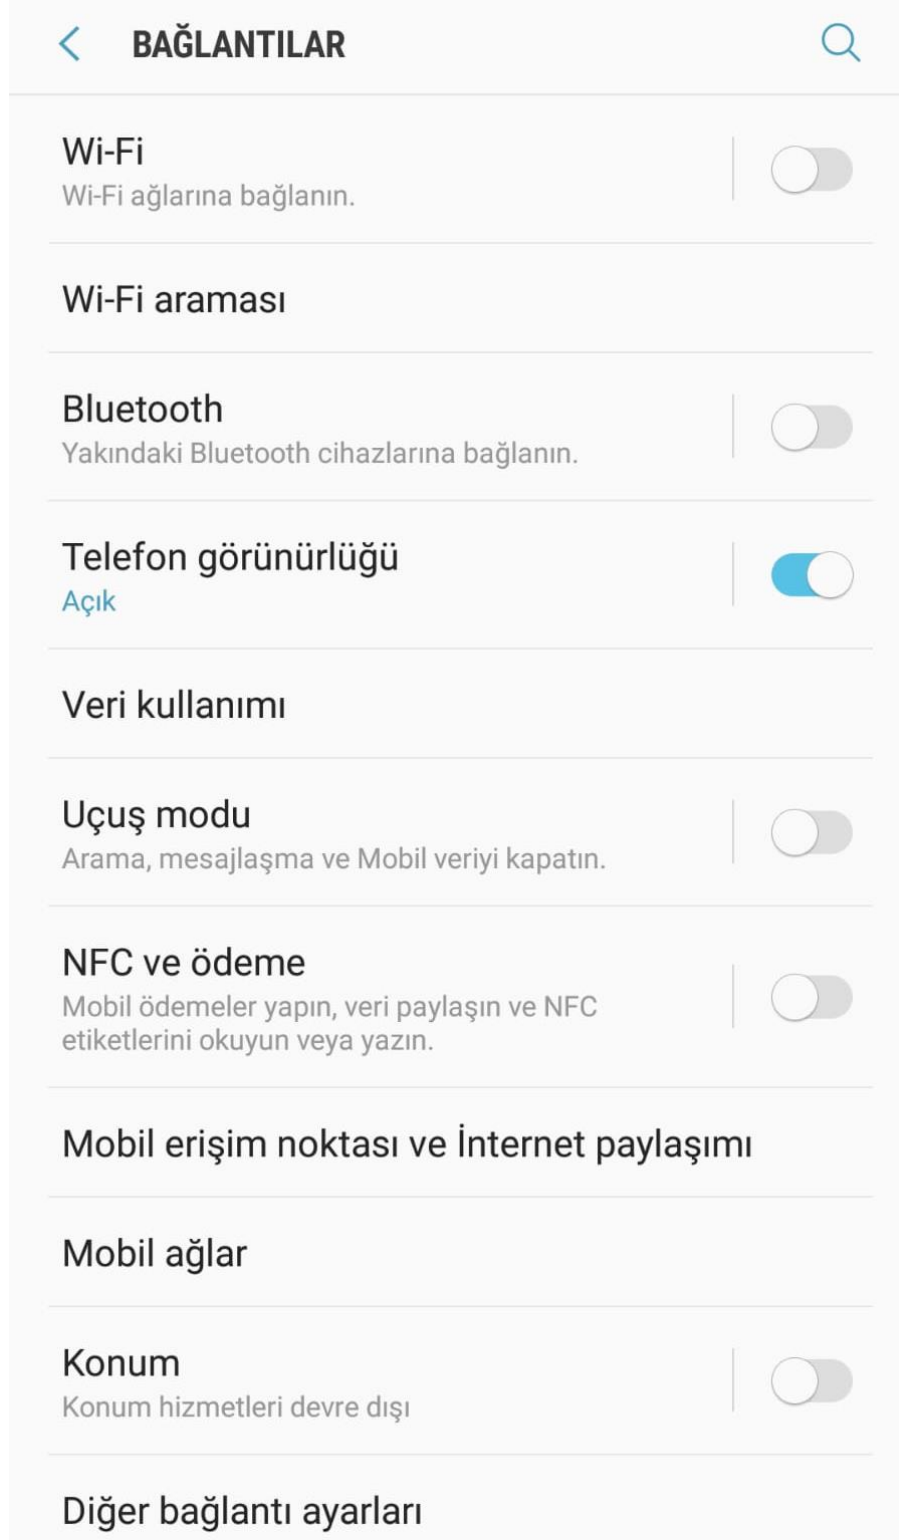

Step 1:

Enter the Settings section from your smartphones with Android operating system.

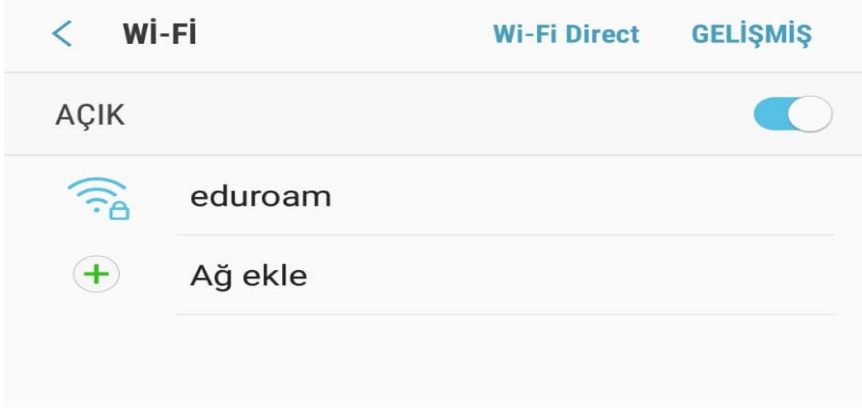

Step 2:

Activate the WIFI option in the settings.

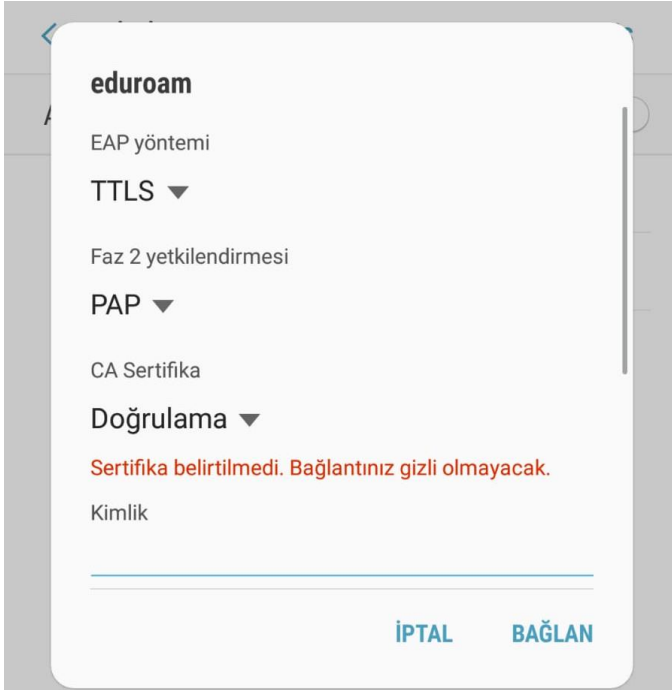

Step 3:

After activating the Wi-Fi option from the settings, select eduroam from the incoming wireless networks as shown in the picture.

Step 4:

On the page that opens; Set EAP Method => TTLS, Phase authorization => PAP, CA Certificate => Authentication.

Make the adjustments as follows by scrolling down the page. Enter your corporate e-mail address (in the form of @ samsun.edu.tr) in the identity section as shown in the picture.

In the Password section, enter your password for your corporate e-mail address.

Then click the CONNECT button.
