

## Eduroam Windows 7 Operating System Settings

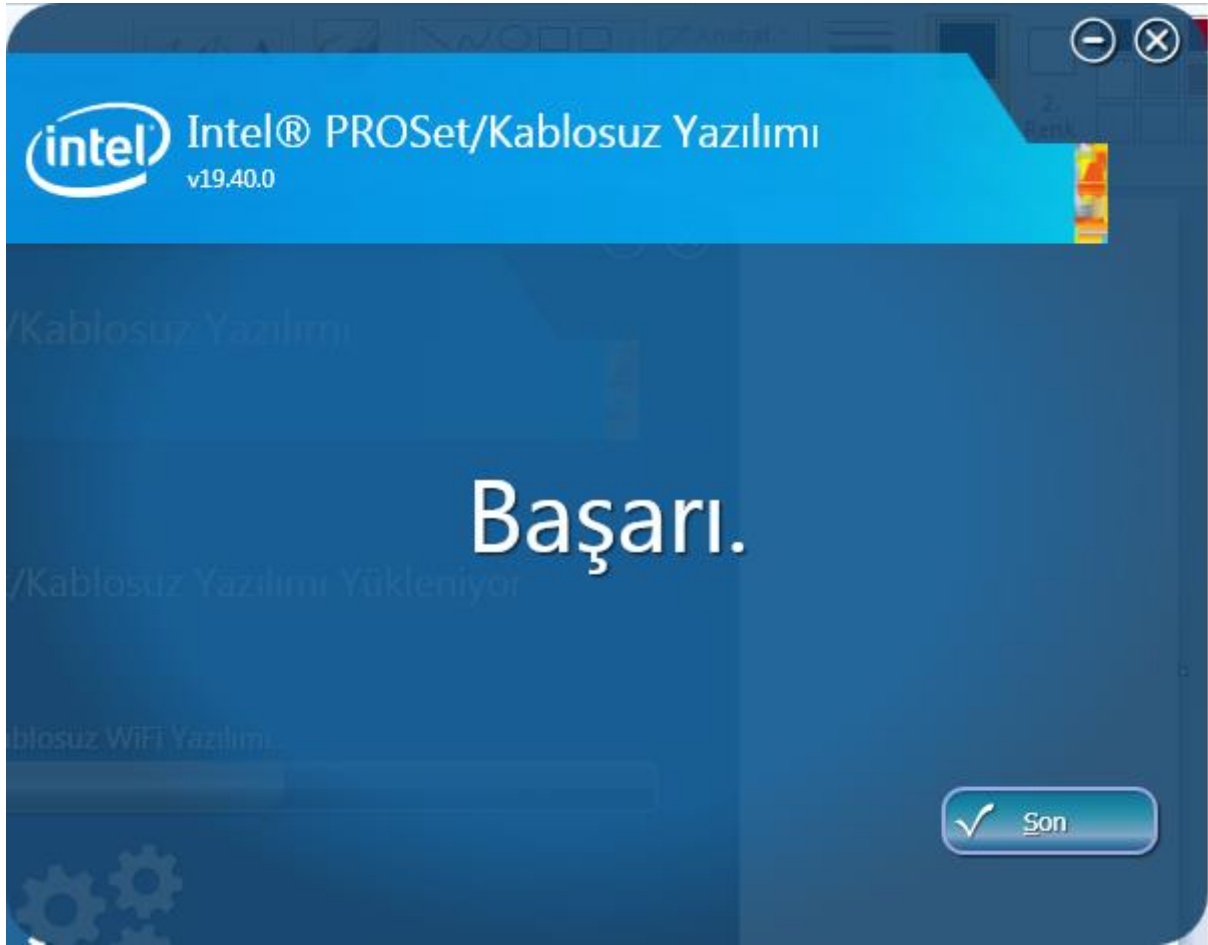

### Step 1:

For 32-bit : [Wireless\\_19.40.0\\_PROSet32\\_Win7.zip](#)

For 64-bit : [Wireless\\_19.40.0\\_PROSet64\\_Win7.zip](#)

Download the programs given above according to the operating system feature of your computer. Then run the program as an administrator.

---

Step 2:

After successfully installing the program as seen on the screen, click the Finish button.

---

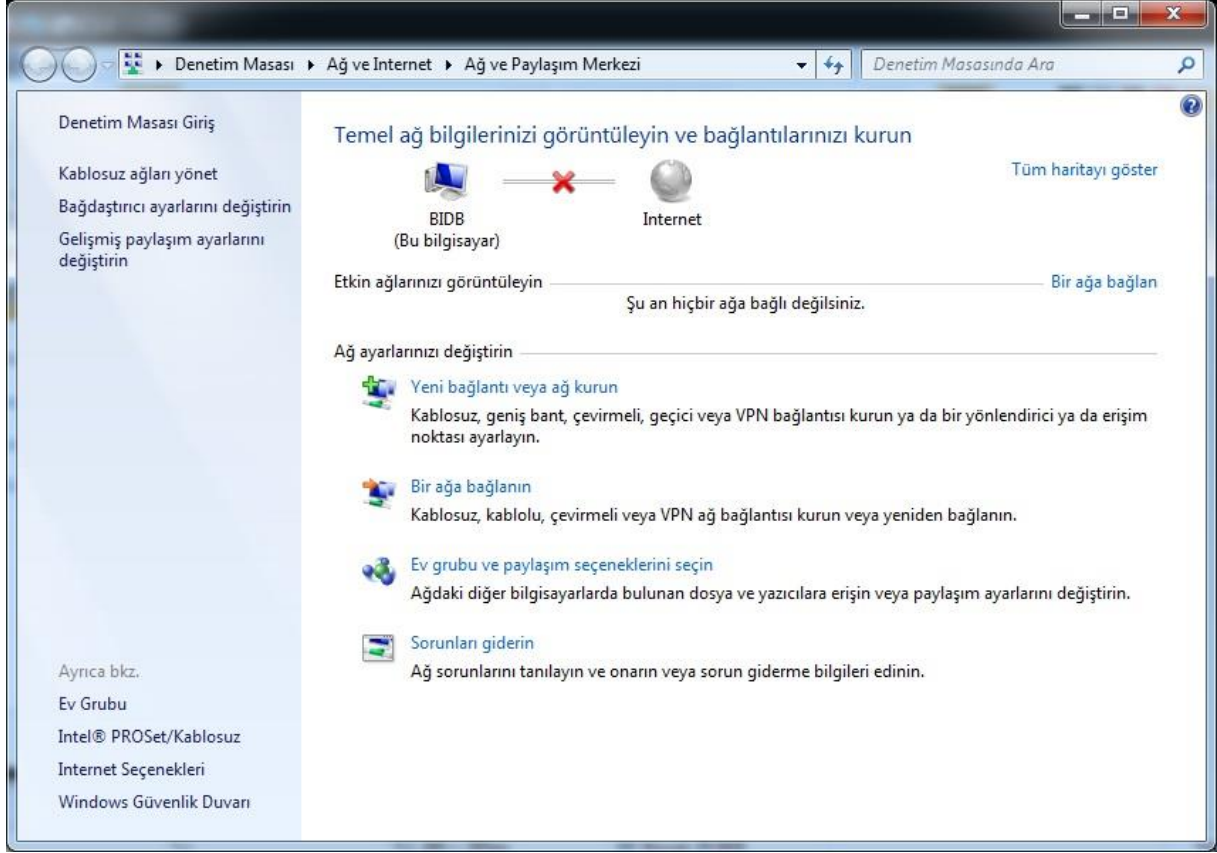

### Step 3:

Then, right click on the Wi-Fi symbol in the lower right corner of your computer and open the **Network and Sharing Center**. The window opened in step 4 is seen.

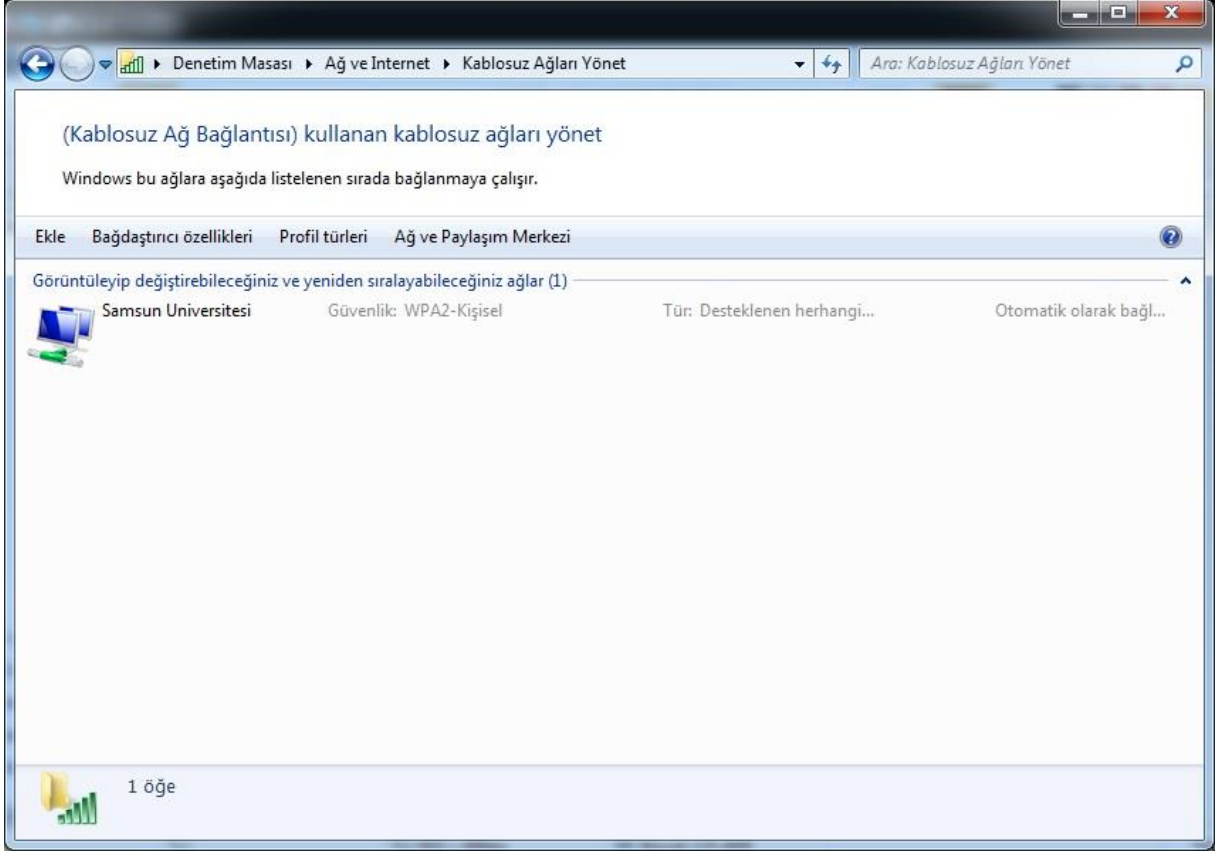

## Step 4:

In step 4, click on the Manage Wireless Networks menu.

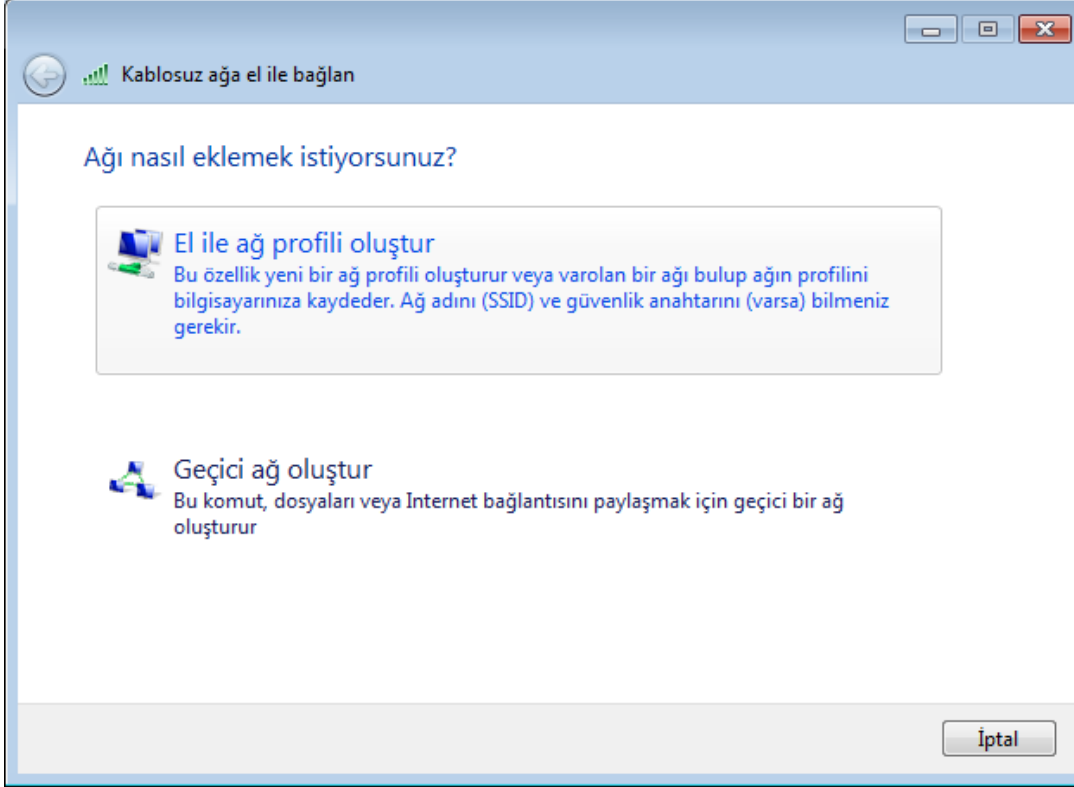

## Step 5:

In this step, if the "**eduroam**" connection is in the wireless network list, remove the "**eduroam**" link. Then click the **Add button** in the top menu.

## Step 6:

After clicking the **Add button**, click the **Manually Create Network Profile** button from the window that opens.

## Step 7:

In the Manually Connect to Wireless Network window

**Network Name:** eduroam

**Security Type:** WPA2-Enterprise

**Encryption Type:** Select as AES.

Then click the **Next Button**

Kablosuz aęa el ile baęlan

Ekleme istedięiniz kablosuz aęın bilgilerini girin
